

Environmental Policy Statement

- The Michael Lonsdale Group inclusive of (Michael Lonsdale Ltd, Michael J Lonsdale Ltd, Michael J Lonsdale (Electrical) Ltd and E7 Building Services Ltd) design, supply and install Mechanical and Electrical Building Services for Commercial, public sector and domestic clients in new and refurbishment contracts with a value of up to £50m.
- The Directors, management and staff of the Company are committed to managing these operations to protect the environment, to prevent pollution and in compliance with all relevant environmental legislation.
- The principal environmental impacts of our activities are resource use, waste creation, energy and water consumption and these are detailed in our aspects register.
- The Group QHSE Manager initiates and manages a framework for setting, evaluating and reviewing environmental objectives and appointing responsible persons to deliver these objectives.
- We will implement processes and strategies to monitor, review, and improve our environmental performance .
- We will work with our customers and clients to help them achieve their environmental objectives.
- In furtherance of these commitments we will communicate this policy to our staff, contractors and clients, provide relevant education and training, and operate a sustainable procurement policy across our businesses.
